STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Newmarket in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the 9th day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, that is to say: To raise such sums of money as may be necessary for General Government, including Town officers' salaries, town officers expenses, election and registration and town hall; for the protection of persons and property, including the police department; for health and sanitation, including the health department, vital statistics and sewer maintenance; for highways and bridges, including state aid, maintenance, sidewalks, street lighting and general expenses of the department; for education, including the public library; for charities, including the decoration of soldiers' graves; for recreation; for cemeteries; for interest; for new construction and improvements, including state aid and town construction; for indebtedness, payments to other Governmental divisions, including County Tax, and pay all other necessary charges arising within said town.

3. To see if the Town will vote to authorize and empower the Selectmen to borrow money for necessary expenditures in anticipation of the collection of taxes.

4. To see if the Town will vote to allow a discount of two per cent (2%) on all taxes, except poll taxes, if paid within 15 days after receipt of bill.

5. To see if the Town will vote to pay members of the Fire Department \$72.00 in addition to that required by law.

6. To see if the Town will vote to accept the budget as submitted by the Budget Committee.

7. To see if the Town will vote to raise the Tax Collector's salary from \$600.00 to \$800.00 a year.

8. To see if the Town will vote to allow the Collector of Taxes additional compensation for his services in collecting the state head tax and fix the amount thereof at 2% of the amount collected.

Given under our hands and seal, this 17th day of February in the year of our Lord nineteen hundred fifty-four.

ARTHUR BEAUCHESNE,
NICHOLAS ZUK,
FRANK SCHANDA,
Selectmen of Newmarket, N. H.

A true copy of Warrant — Attest:

ARTHUR BEAUCHESNE,
NICHOLAS ZUK,
FRANK SCHANDA,
Selectmen of Newmarket, N. H.

We hereby certify that we gave notice to the inhabitants within named, to meet at the time and place and

for the purpose within mentioned, by posting up an attested copy of the within Warrant at the place of meeting within named, and a like attested copy at the Post Office being a public place in said town, on the 17th day of February, 1954.

ARTHUR BEAUCHESNE,
NICHOLAS ZUK,
FRANK SCHANDA,
Selectmen of Newmarket, N. H.

REPORT OF THE N. H. DEPT. OF HEALTH

Bureau of Public Health Nursing

Jan. 1, 1953 - Dec. 31, 1953

Seven Well Child conferences were held at the Fire Station during the past year. Physical examination and immunization against diphtheria, tetanus, whooping cough and small pox were given by a physician.

62	Examined
19	Infants
43	Pre-school
127	Triple Toxoid
31	Infants
96	Pre-school
51	Small Pox
16	Infants
35	Pre-school

I would like to take this opportunity to thank the

Doctors, Civics Department, Woman's Club, PTA and Firemen. This service would not have been possible without the parents and friends who have cooperated so generously with the work of the Public Health Nurse. It has been a pleasure to work with you.

Respectfully submitted,
HAZEL W. SOMES, R. N.

SCHOOL WARRANT

To the Inhabitants of the School District in the town of Newmarket qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 16th day of March, 1954, at eight o'clock in the evening, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation which balance is to be raised by taxes by the town.
9. To see if the district will vote to raise and appropriate a sum not to exceed \$12,000 for the vestibule including men's room and women's room, and storage room to be added to the gymnasium-auditorium now under construction as an addition to the present

Newmarket high school; and whether the district will vote to raise such sum through the issuance of serial notes or bonds upon the credit of the district for all or any portion of the sum so raised and appropriated; and to authorize the school board to determine the terms and conditions upon which the notes or bonds shall be issued including their sale and the time and place of payment of principal and interest; in accordance with the provisions of the Municipal Bonds Statute, N. H. Revised Laws, Chapter 72, and any amendments thereto.

10. To transact any other business which may legally come before this meeting.

Given under our hands at said Newmarket, this 11th day of February, 1954.

KATHRYN RODRIGUES,
JOHN JORDAN,
JOHN POHOPEK,

School Board.

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statement and other financial records of the treasurer of the school district of Newmarket, of which the above is a true summary for the fiscal year ending June 30, 1953, and find them correct in all respects.

PERCY B. LARRABEE,
L. O. TROTTIER,

Auditors.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Newmarket:

It is with pleasure that I submit my fourth annual report as your Superintendent of Schools.

The School Board and citizens of Newmarket have every reason to be proud of their schools. Through the foresight of your school board and cooperation of teachers and citizens the educational program is expanding and developing into a very well rounded program. That the voting citizens of Newmarket are willing to support their schools financially is evidenced by their recommendations.

The addition of the two metal speed lathes and shaper has made it possible to develop a practical shop program that will give training in both woodwork and metal work. This should be of material value to those graduates who will be employed in the shops in and around Newmarket.

The lengthened school day is another good illustration of teacher interest in developing a good program. By adding the extra period it was possible to devote time to specific extra-curricula activities that are a definite part of any good school program. In this way the regular classroom activities are not interfered with by the extra curricula program. It is indicative of the professional morale of your teachers when they ask for a longer school day in order to be of greater service to the school.

Another important step forward is the development of a proposed Adult Education program to be carried on one night a week for a period of ten or twelve weeks. Included in this program could be classes in typing, bookkeeping, sewing, shop, reading; in fact any subject area, depending upon the number of people requesting a specific course. The only expense would

be a nominal fee to cover the expenses of instructor, materials, and use of building.

The new gymnasium-auditorium will be a fine asset to town and school alike; and again is a monument to Newmarket's civic pride. Being able to carry on school sponsored dances, plays, music programs and graduation activities in the new auditorium will aid greatly in scheduling of such events as well as in the administration of them. The advantages from an athletic viewpoint is obvious. A gymnasium can be an integral part of a school's instructional program providing there is an adequate staff for instruction. Newmarket should be looking toward the addition of one more teacher and the development of a full-time program in physical education. A gymnasium built at present day costs is too great an investment to remain unused six hours of every school day.

The elementary schools should not be overlooked in the fervor for a better high school program. A definite program for the improvement of instructional facilities for the two elementary schools should be set up. Two thousand dollars a year for a period of three years would provide new movable desk and chair units in the six elementary classrooms. The two thousand dollars would provide new seating and needed additional display space for two rooms in each of the three years. I recommend doing grades 1-2, 3-4, 5-6 in that order with the program beginning 1955-56. This would give Newmarket six functional, well equipped, well lighted, elementary classrooms.

Teachers

Mr. John Grindley, University of South Carolina, with post graduate work at B. U., to replace Mr. Charles Boska as teacher of Social Studies in grades 7-8-9. Mr. Grindley comes to us with no previous experience but has shown professional interest, and cooperation in mastering the art of teaching.

Where replacement of only one teacher was necessary for this year, it is only natural that the instructional program should improve. Congratulations to the School Board, citizens, teachers and Principals Avery and Pound for maintaining an esprit de corps that encourages teachers to remain in Newmarket.

Repairs and Replacements

Your school board is to be commended on its efforts to keep Newmarket's schools in good repair. In Denny and Rusty, you have two men who take pride in doing a good job which keeps repairs to a minimum. As I suggested a plan for future replacements in the preceding paragraph, I shall only say here, "Carry on the good work."

Hot Lunches

Under the guidance of the P. T. A. Executive Committee and Mrs. Isabelle Dearborn and Mrs. Jones as cook, the school lunch program has been extremely successful this year. Rearrangement of the time table for eating lunches has eased the crowding and subsequently led to a more smoothly operating program.

Building Program

Newmarket launched its new gymnasium-auditorium with its approval of a bond issue amounting to \$95,000.00. Bids for the bond issue were received from the Newmarket National Bank, F. W. Horne & Co., Inc., Concord, N. H., and E. W. Dudley, Inc., of Manchester. E. W. Dudley, Inc., of Manchester was the lowest bidder at $3\frac{1}{4}\%$ with his concern meeting all expenses relative to the issuance of the bonds such as legal opinion regarding their legality, cost of printing, etc. The money has been received and is on deposit at the Newmarket National Bank. Mr. Blanchard Stebbins, Contractor, of Manchester, N. H., was low bidder on the general contract and has already started construction. It is expected that the building will be ready for use in June so the present Seniors

can be the first class to hold their graduation program in Newmarket's new gymnasium-auditorium.

The School Board and Building Committee are to be commended for the many extra hours of their time given to discussing and reviewing plans presented by Irving W. Hersey & Associates, Architects. That the above group spent their time to good advantage will be evidenced in the fact that Newmarket will have an addition that will meet the needs of the Community for many years to come.

In closing I wish to once again congratulate the school board and citizens for the splendid support you have given your educational program. I wish to thank all concerned for your cooperation and help; it has been a pleasure to work with you.

Respectfully submitted,

LOUIS L. RAMSAY,
Superintendent of Schools.

PRINCIPAL'S ANNUAL REPORT

To the School Board and Citizens of Newmarket:

It is with pleasure to be able once again to submit this annual report to you.

Teachers

For the first time in many years our teacher turnover rate was far below normal. Mr. Charles Boska resigned and was replaced by Mr. John Grindley, University of North Carolina. Mr. Grindley teaches seventh and eighth grade English and social studies.

Miss Wood and Mr. Miner have been here five years; Mr. Landroche and Mr. LeBouthillier have been here three years; Miss Neville, Miss Kuninski, Mr. Crocker, and Mr. Farley have been here two years. It is apparent, in view of the above, that our teachers are receiving satisfaction in their work, which means a better education for your children.

It is only natural, however, that some of our teachers will seek employment elsewhere after serving here two or three years. Our loss will be some other school's gain. We must avoid, if possible, the situation whereby this school becomes a training class for new teachers. It takes at least a year for a new teacher to find his place in his work. It is in the second and subsequent years that a teacher begins to produce and fit into the whole educational picture. Actually we get much more from our teachers after a year's experience.

It costs money to train skilled people; industry recognizes this and does its best to retain good workers.

We must, both economically and educationally, accept this basic principle.

At the present time we are short handed for the program we are offering. We have eight full time teachers for approximately one hundred and ninety pupils. Although the teacher-pupil ratio is good, it is deceiving because of our very specialized classes which do not attract large numbers, but which are necessary in our concept of education. For example, our basic English and math classes have thirty-five or more pupils. Certainly very little individual attention can be given under these conditions. Most educators agree that in the above mentioned class twenty-five pupils is the maximum size for proper teaching efficiency. It may be impossible to reach this ideal, but we can and should begin to approach it.

The addition of one more teacher will aid considerably in reducing some of our large classes. Actually, under our present system, this teacher would not necessarily have to teach five subjects, the normal teaching load. The addition of a teacher, physical education instructor, and coach would solve several pressing problems at once.

Our athletic program is constantly expanding and thus requires more time for satisfactory supervision. The time is coming when we will not be able to attract and hold good physical education (coaches) teachers when they find they have to manage and direct varsity athletics, coach three major sports, and teach five full classes every day. If a full time teacher were added to our staff, our present coach, Mr. Landroche, could give up his five classes, if the need presents itself (and it will), he can teach one or two small overflow classes, carry on an organized physical education program for both boys and girls (which we have never had) and do his coaching without being overburdened. Incidentally, our new gymnasium will be utilized more

fully with the inclusion of a physical education program.

I believe this proposal has merit and should receive deep thought and consideration, not necessarily for this year — but in years to come.

Program of Studies

Our curriculum is being examined constantly and is revised where necessary. At the present time we offer the following broad programs: General, home economics, shop, commercial and college preparatory.

Typical four year subject offering, by course, are as follows:

General — the average pupil taking this course will receive instruction in the following subjects: four years of English, civics, world history, United States history, sociology, and psychology, world problems, general math, biology, science, plus home economics or shop courses according to choice.

Home Economics — the average girl taking this course will receive instruction in the following subjects: four years of English, three or four units in social studies as listed above, a year of foods and nutrition, a year of sewing, a year each of home management and family living, plus units in math, science, commercial subjects, and social studies as desired.

Shop — the average boy taking general shop will study four years of English, general math, general science, social studies as desired, two years of wood-working using hand and power tools, and two years of machine shop theory, practice and mechanical drawing, plus units in other areas as needed and desired.

Commercial — boys and girls taking the commercial course will take four years of English, general business, bookkeeping, two years of typing, shorthand, office practice, plus units in social studies, math, science, home economics, or shop as desired.

College preparatory — the average pupil taking this

course will receive instruction in four years of English, four years of advanced math including two years of algebra and a year of plane geometry, a one-half year each in trigonometry and solid geometry, biology, chemistry, physics, choice of two years of Latin, or French, plus desired units in social studies.

Every high school graduate must take and pass four years of English and one year of United States history.

From the above it is evident that for a small school we offer a good variety of subjects which enable our graduates to compete favorably with graduates of other schools, both smaller and larger, than ours.

We must not lose sight of one very important fact—**and that is, a subject is only as good as its teacher.** Regardless of the names and numbers of subjects taught in any school, the last result or final outcome depends on the quality of its teachers. Advanced math classes taught by a poor teacher is a distinct waste of time and money.

Activities

Our activity program is increasing all the time! So much, in fact, that the school day was extended to provide time for the pursuance of various group programs we have organized in this school.

Next year it may prove advisable to change the daily schedule to provide for longer class periods so necessary in today's teaching. This will not mean a still longer day, but a reduction in the number of periods from seven to six.

At the present time our activities consist of boys' and girls' glee clubs, yearbook, dramatic groups, dance instruction, boys' cooking and girls' shop classes, guidance lectures, supervised study halls for pupils who have subject difficulties, plus numerous activities that exist for short periods of time. Later on more work

will be done with intramural sports as time, space and personnel are available.

Athletics

Our varsity athletic team has fared well during the past year. For the second year in a row our cross country team, coached by Mr. Landroche, won the State Class B championship. Our boys' basketball team went to the tournament play offs once again, but were defeated. Our golf team was entered in the state meet and our boys won hoop honors in two classes. Girls' basketball, coached by Miss Kuninski, improved its previous year's record as did the girls' softball team under the direction of Miss Neville. Baseball suffered considerably, primarily because the Nichols Avenue field was unplayable for the entire season and a lack of interest among the boys. Certainly if baseball is to continue as a major sport, steps must be taken at once to provide for a suitable field. The high school field cannot be used for games. The presence of the new building makes safe play impossible on an almost impossible field. For the first time we had a spring track team. Although we entered in only one meet — that of the Southeastern B League, we managed to win several first and second places. Through the cooperation of the University of New Hampshire, Department of Girls' Physical Education, we had two cadet physical education teachers with us for two days per week from February to June. The girls received instruction in volley ball, badminton, the dance, and posture development. This was a fine addition to our program which will be repeated again this year.

Once again I wish to thank everyone concerned with the successful operation of the school — the School Board, Mr. Ramsay, superintendent, the faculty, Denny, and the townspeople for their continual support and cooperation without which any task would be most difficult, if not impossible.

REXFORD H. AVERY.

REPORT OF MUSIC SUPERVISOR

The progress in the instruction of music in our schools has been very encouraging. Both the instrumental and vocal phases have made promising steps forward toward their objectives. In the past year the cooperation of all my associate teachers in both the high school and elementary schools has been most helpful. Without their concern and interest much could not have been accomplished. Much credit must also go to the students with whom I have worked. I am most pleased with the sincere and cooperative attitude they have displayed. Many of the students of the class of 1954 have been outstanding in the music endeavors of 1953-54 and will certainly be missed by me and their fellow students at the start of the 1954-55 school year.

Elementary Music

The program of instruction in the elementary schools is much the same as was outlined in my last report. Most of the time allotted to music instruction is devoted to music reading. The effects of this type of instruction are beginning to show. The students of grade 5 are now singing two-part music and will be able to sing three and four-part music when they are in junior high school. The students of grades three and four are showing good progress. Grade four will start two-part music near the end of the school year. It is important to remember that these students are reading music and not learning by rote. Rote instruction is done only in grade one. From grade two to grade six the students read their songs and thereby are exposed to a true learning experience.

In grades four, five and six, some time is spent on music listening. It is my objective to teach the students how to listen to music of all varieties so that they may enjoy all that music has to offer in our every-

day life. This program is still in its early development stages because of expense of recordings. A record library is being formed so that in future years a good listening program will be in operation.

Junior High School Music

Grade seven and eight are now meeting twice a week for music. This doubles the time of instruction that these two grades received in previous years. Theory of harmony, a technical study of music, has been one of the chief subjects for both grades. Because of the inability of most students to read music, the singing experiences of these two groups has not been what it should be. Most of the songs learned are by rote methods.

High School Music

The Girls' and Boys' Glee Clubs have had a most successful year. The two organizations performed superlatively at the Christmas program presented two evenings during Christmas week. The Boys' Glee Club has been singing with the Girls' Glee Club, forming a mixed chorus of forty-eight voices. Selection of all members is done by audition so that the quality and ability of the group has been improved a great deal. The Girls' Glee Club is made up of thirty-six members with seventeen girls on a stand-by basis in the case of withdrawal. The Boys' Glee Club is made up of twelve members with eight waiting to be admitted.

Instrumental Music

The band program in both the high and elementary schools has been very successful considering the limited number of students who are able to obtain instruments. Many students who are very anxious to learn to play a band instrument cannot because of financial problems in their home. Most of the instruments used by the students now studying are rented. All lessons are given free so that the only expense is instrument rental and repair. In a survey taken at the beginning

of the 1953-54 school year it was found that over eighty per cent of the students desired to learn to play a band instrument. Only approximately five per cent of that group are now taking lessons. It is hoped that we might begin purchasing instruments and renting them at a low rate to those students qualified to play a band instrument. The rental program would help keep the instruments in good repair and finance the purchase of additional instruments. Over a period of time our school would then have a sufficient number of instruments available to meet the needs of a well organized public school band.

The progress of those students now studying instrumental work has been most encouraging. A band has been formed which rehearses twice a week during after school hours. In spite of the very slow growth of this group, the children are working together with a great deal of enthusiasm. If this program can be continued and aided with more instruments, I am certain that our town will have a band to be proud of.

Respectfully submitted,

LEWIS E. CROCKER,

Music Supervisor.

GUIDANCE DIRECTOR'S REPORT

To the Superintendent of Schools, Members of the School Board and Citizens of Newmarket:

Again it gives me great pleasure to present my annual report, the second, as Director of Guidance.

The program is moving along well this year toward our objective — a first class program of guidance services for all our pupils from grade one to twelve. The Individual Inventory for each pupil in the eighth and twelfth grades has been set up and the guidance tests have been given. On the basis of these we are now counseling each pupil individually on their choice of an occupation or the choice of a course in high school in which they will begin the training for a vocational career. Mr. Avery gave the vocational guidance battery of tests to the eighth and twelfth grades.

In order to acquaint the pupils with the opportunities in the various fields of work this year we are using three approaches: 1—Bulletins giving information about the various careers are placed on the bulletin board each week; 2—Classes each week for the eighth grade pupils during which time I discuss with them the occupational world and the many types of careers and opportunities therein. We are using part of this class as a time during which we discuss the Development of Personality. We are making plans to have these classes become a regular part of the program; 3—Individual counseling. This is basic to the whole process of guiding, the time when I sit down with them and talk over their career and its possibilities.

Mrs. Pound gave the tests to the fourth grade pupils and Mrs. Hendzel gave them to the sixth grade pupils. These are the standardized tests which compare the progress our pupils are making in reading, arithmetic and language with other fourth and sixth grade pupils in the United States. These tests, too, point out the

weaknesses which need to be strengthened. An aptitude test was also given to the fourth and sixth grade.

We are adding this year, for the use of the teachers in the first three grades, a standardized reading test. It is during these three grades that help in reading may be most advantageously given.

We are now working on the Individual Inventory for each pupil starting with the first grade. The purpose of the inventory is to keep a close check on the progress the child is making in his physical, mental, social, emotional, and moral development. If the pupil is not doing work up to his potentialities, if he is not getting along well with other children, if he is not developing properly emotionally, it is in the early grades that he can be best and most easily helped.

We are planning this year on a course for the teachers in Personality Development and the use of our tests. A course for parents in Child Training will be given in March.

For those interested adults, the Vocational Guidance Battery of Tests will be available in the spring, along with an individual appraisal.

I feel that the guidance program is well on its way toward becoming an integral part of our educational system. For this, and the good progress which we have been making, a great share of the credit must go to Mr. Avery and Mrs. Pound.

In closing I wish to express my deepest appreciation to you all for your help, aid and understanding.

Respectfully submitted,

JOHN A. SCANLAN,

Director of Guidance.

Home visits, 19

Schools in Newmarket have had a very good year with regard to sickness with very few contagious disease. The virus cold or flu was hard on children in the elementary grades.

A good hot lunch program is still carried on by P. T. A. for all children in elementary grades and at St. Mary's School.

In June two "Pre School Clinics" were held with Dr. Irving Brown as the examining physician. Thirty-one children attended from the Central School and twenty-five children attended from St. Mary's School.

A "Dental Clinic" sponsored by the P. T. A. of Newmarket is held every Thursday morning from eight until twelve o'clock. All second grade children in Central and St. Mary's School who need dental care are eligible. All children receive two X-Rays. This clinic will be carried into grade four if time and finances warrant.

1953 CLINIC

Number of children attending clinic	45
Number of children X-Rayed	45
Number of X-Rays	90

Of the above total only seven had no work done on permanent teeth. At least 20 (6 year molars) were saved from almost a complete loss.

Parents *please* help your child by returning to the dentist at least once a year for dental care. Also help your child clean his teeth regularly. "A clean tooth will never decay."

My thanks to the School Board, P. T. A., teachers, sisters of St. Mary's, Dr. Brown and parents for the excellent cooperation shown me during this past year.

MYRTLE FLETCHER,

School Nurse.

BIRTHS

Registered in the Town of Newmarket, N. H.
